

Medical Laboratory Technologist- AUMBC

AUBMC is a leading academic medical center in Lebanon, offering a wide range of health services and specialties

Major: degree in Medical Laboratory Sciences, or any related field

Experience: 0-2 years of experience as Medical Laboratory Technologist

Major Responsibilities:

- Greet, receive, and create a positive experience for every patient/family by demonstrating a professional, caring, empathetic and friendly approach following the service excellence standards and guidelines.
- Follow the established guidelines and protocols: for performing routine to moderately complex pathology and laboratory procedures for results analysis, interpretation, and reporting as per the specific policy and procedure.
- Receive, handle, and prepare specimen following section specific policies and procedures.
- Identify failures in test systems (pre-analytical, analytical, and post analytical), report issues to concerned individuals and apply troubleshooting steps.
- Follow the established guidelines and protocol for reporting of critical values.
- Perform quality control procedures as the job requires, report quality control failures to designated personnel, and apply suggested corrective action.
- Attend the yearly-required CME credits.
- Operate laboratory equipment and instruments following established protocols.
- Perform timely maintenance and report failures to support personnel for corrective action.
- Perform periodic reagent and supplies inventory for the assigned station to ensure availability of the needed reagents and supplies for operation as well as check, alert for expired or nearly expired reagents, and verify reagents for acceptability.
- Perform other related duties as assigned by direct supervisor.
