Food Science & Nutrition R&D Specialist – PawPots

An innovative online platform offering fresh, cooked, and fully customized meal plans for dogs and cats. With a focus on using real, natural ingredients, we prioritize pet health and nutrition

Major: degree in Food Science, Nutrition, Agriculture and Food Engineering, or any related field
Experience: 3 – 6 years of experience
Major Responsibilities:

- Research pet nutrition trends and ingredients to create new, healthy recipes.
- Track industry trends and competitor offerings to ensure PawPots stays ahead.
- Research tools, raw materials, and equipment in the market that support product development and production efficiency.
- Formulate and adjust recipes using advanced nutrient calculators and software.
- Tailor recipes based on individual pet profiles, dietary needs, and medical conditions to support health goals and ensure optimal nutrition for every pet.
- Design and run trials to ensure recipes are palatable, nutritious, and safe.
- Analyze external and internal test results to ensure optimal product performance.
- Create and update nutritional guidelines, ingredient lists, and product documentation.
- Assist in maintaining product consistency and solving production challenges.
- Work with marketing, supply chain, and production teams to launch new products.
- Stay up to date on pet food regulations to maintain product compliance.

Additional Requirements:

- Pet and/or medical nutrition experience are a big plus.
- Excellent research, analytical, and problem-solving skills.
- Proficiency in Microsoft Office and related software.
- Fluency in English, both written and spoken, is required.
- Passion for dogs and cats is a big plus!
