

Project Engineer

Construction industry

Location: Accra, Ghana

Major: degree in Civil Engineering, or any related field

Experience: 5-8 years of experience in a contracting company, with hands-on involvement in site execution

Major Responsibilities:

- Supervise and coordinate site activities, ensuring project execution aligns with design specifications, timelines, and budget.
- Monitor progress and quality of finishing works including plastering, painting, flooring, ceiling, and interior fit-outs.
- Collaborate with site supervisors, subcontractors, and consultants to resolve technical and operational issues.
- Ensure compliance with local construction regulations, safety protocols, and quality standards.
- Assist in preparing daily, weekly, and monthly site progress reports.
- Review technical drawings, specifications, and BOQs for accuracy and feasibility.
- Support procurement and material planning for finishing works.
- Attend site meetings and provide input on project planning and sequencing.

Additional Requirements:

- Proven record of accomplishment in finishing works on mid to large-scale construction projects.
- Previous experience in Ghana or other African countries is a plus.
- Proficient in English (written and spoken).
