

## **Python Developer Intern- Wakilni**

*Wakilni is a courier service that offers logistics solutions for e-commerce businesses and individuals in Lebanon*

**Internship Duration:** 4 weeks (extendable)

**Major:** degree in Computer Science, Computer Engineering, or any related field

**Experience:** currently enrolled students and fresh graduates are both accepted

**Major Responsibilities:**

- Automate the collection of publicly available data from Instagram and TikTok
- Build a script to collect lightweight profile-level metrics from a list of over 4,000 brand and individual accounts, and outputting the data in a structured format (Google Sheets or CSV)
- Develop a Python-based scraper or automation tool to collect the following data:
  - Follower count (Instagram and TikTok)
  - Number of posts published in the last 30 days
  - Likes and comments on 3–5 recent posts
  - Output data into a clean Google Sheet or CSV
  - Handle errors gracefully (private accounts, deleted profiles, etc.)

**Additional Requirements:**

- Strong Python scripting skills
- Knowledge using Selenium, Playwright, or similar headless browsers
- Knowledge of Google Sheets API or Excel- CSV automation
- Understanding of how Instagram and TikTok structure their profile- post data

**How to Apply:**
